How Do the Americans Eat?

There are various ethnic food, health food, fast food and traditional home-cooked food in the USA. Mexican food is the favourite of many Americans, but they love spaghetti, pizza and other types of Italian food. Chinese food has been popular with them for years. Now they often prefer fast food like hamburgers, hot dogs and French fries.

Many years the American people liked traditional big breakfast and diet of meat and potatoes. Usually they eat three times a day. For breakfast they have first juice, particularly orange one, then different kinds of cereal: cornflakes, oatmeal, cream of wheat and others and eggs (fried or hard-boiled), tea or coffee. Lunch is a quick meal for the most Americans. For lunch they have fast food: pizza, potato chips, McDonalds's food, sandwiches, hot dogs, hot corn, any kind of sweet gas water, fruit and salads. There are many fast-food restaurants all over the country where people can have lunch during their short lunch break. At lunchtime most Americans eat on the run, so fast food is very popular.

For dinner they always have salad with different kinds of vegetal mixed with croutons and dressing. After salad they like to eat fried chicken, steaks, ribs, fish, baked, fried and mashed potatoes.

Maybe the Americans have more time for dinner, but they do not often have enough time for grocery shopping, cooking and washing dishes. Often instead of asking, "What's for dinner?" they ask: "Where are we going for dinner?"

The Americans have never eaten herring and seldom soup. But if they want any soup, they eat puree or cream soup. During any meal they drink different kinds of gas water or Coca-Cola. Lettuce is the main ingredient of salads. The American people like ice cream, cookies, cakes, candies very much, they also use 8—10 glasses of water a day.

In common the Americans eat much, particularly at weekends. They go outside and very popular food is barbecue and food in cans. They also eat hot dogs, hot corn and less bread.

60 per cent of the Americans (children and adults) are overweight! And nowadays the American people begin to think seriously about their physical wellbeing. So health food becomes more popular. It doesn't contain chemicals. Health food is fresh and natural American doctors recommend to eat a well-balanced diet daily.

Eating out in Moscow

Some years ago there were only few canteens, cafes and restaurants where people could have lunch, dinner or a snack in Moscow. Nowadays there are a lot of different places here where we can eat food at reasonable price and take someone for lunch on business.

If you want to eat on the run, you should go to a fast-food restaurant: McDonalds, "Russian Bistro" or Pizza Hut. They are very popular now. The first Russian-Canadian restaurant McDonald's was opened in 1990. The service is quick: you enter the restaurant, come up to the counter, make your choice, pay the money, take the tray with your dishes and occupy any vacant table. The menu card offers you single or double hamburgers, cheeseburgers, fillet of fish, fried crisp potatoes. For a drink, you can order "Coca-Cola", "Fanta", "Sprite", tea or coffee.

If you are in a hurry, you can have a snack in a bar. There are many kinds of bars in Moscow: snack bars, express bars, milk bars, beer bars. Besides, if you are hungry but have too little time for eating, you can take a quick bite in a cafe "Russian Bistro" or "Russian Bliny".

But if you seek the gastronomical experience of your life, you should visit "Yar" or "Metropol". Many new restaurants keep the old traditions of the Russian cuisine and hospitality. Each restaurant has its specialties of the house.

In European, American and oriental restaurants of Moscow you can order international dishes although each restaurant as a rule specializes in one of the national cuisines.

The French cuisine has had the leading role in Moscow homes and restaurants since Peter the Great's times. In today's Moscow you can find a classical choice of French dishes at the art restaurant "Nostalgie". The restaurant has a vast wine list and a sommelier to help you make the right choice.

Italian cuisine in Moscow is one of the most popular. Best Moscow restaurants, "Pizza Express" for example, offer you a great choice of pasta with different sauces as well as many pizzas — *Neapolitana*, 4 *Seasons*, *Margarita*.

North America cuisine is also very popular in Moscow. The main food for modern Americans and Canadians is vegetables and fruit salads. Steak-house restaurants are proud of meat dishes. The leading dish here is American steak.

If you are interested in the culinary arts of Indochina, you have to visit popular Chinese, Japanese or Korean restaurants. The people of Indochina eat practically every kind of food, but in the culinary art they don't use European dairy products. They almost never use salt but they use soya sauce, rice wine, vegetable's oil.

It is impossible to describe all the variety of dishes of different countries. Our advice is to visit these restaurants and taste everything yourself.

1. Translate into Russian: Traveling

Thousands of people spend their holidays traveling or travel on business.

Traveling by air has some advantages of course. It is more convenient and much faster than any other means of traveling. Before you board the plane you hand your luggage. You do not take it with you. When the passengers are invited to get into the plane you board it. The stewardess greets the passengers and shows them to their seats. She asks the passengers to fasten their seat belts and not to smoke when the plane takes off. Then she brings some mineral water, lemonade and sweets. During the flight some of the passengers read, others chat or look out of the windows — enjoying the beautiful scenes. Your plane lands in one or two hours and you realize all the advantages of traveling by air, that's why all busy people prefer to go on business trip by plane.

2. Answer the questions:

Are you fond of traveling?

Do you prefer to travel light or heavy?

Why do many business people prefer to travel by air?

What do passengers do during the flight?

1. Read and translate the text: Styles of food service. Buffet service

There are many types of catering establishments: first class restaurants, small restaurants, cafeterias, snack bars and fast-food restaurants. There are various basic styles of food service in restaurants of different types. Buffet service is often called the "Swedish Board". This system of food service is very convenient for the guests — they needn't wait for the waiters and bills. This is really self-service.

The counters with snacks and dishes, and snack-plates and trays for taking food are placed in the centre of the dining hall. The guests come up to the Swedish Board and put the meals, appetizers and salads on the snack-plates themselves. Then they put everything on the trays and take their seats at the tables.

The assortment of appetizers, dishes and beverages is usually rich. The guests can taste a little of each dish. The waiter's role is to clear the tables and serve drinks. The waiters can also help the guests if necessary.

2. Answer the questions:

3 3/4 cups of water

2 1/3 cups of chickpea flour

1 onion, medium

4 tbsp extra virgin olive oil

1 tsp salt

A big pinch of pepper

Pour the water into a bowl and then gradually add the chickpea flour. Mix this using a wire whisk, and then add salt into it and allow it to stand for 4 hours at room temperature or overnight. Remove any foam that forms on the top. Then, grease a 16-inch by 12-inch baking pan with oil, and then add 2 more tablespoons of oil into it. Next, put the chickpea mixture into it, using a fork to mix it and the oil well. Sprinkle the top with pepper. Then, cut the onion into thin slices. Heat 2 tablespoons of oil in a pan and add the onion into it, cooking it for around 10 minutes on medium heat. Then heat the oven to 400 degrees, top the farinata with the cooked slices of onion and bake for about 20 to 25 minutes. Then, take it out of the oven and allow it to cool for 10 minutes and then cut into pieces.
